

**CATHAYRED™**  
**A New Class of Red Iron Oxide Pigments**

## **CATHAY INDUSTRIES** introduce **CATHAYRED™** new range of high performance Red Iron Oxide Pigments.

Leading global iron oxide pigment manufacturer **CATHAY INDUSTRIES** introduces **CATHAYRED™** a renewed and extended range of precipitated Red Iron Oxide Pigments specifically designed for the paint and coating industries.

Continuous refinement and enhancement of **CATHAY**'s proprietary wet precipitation process has led to a new range of red iron oxides **CATHAYRED™** that can effectively match the previously unattainable color space of Copperas Reds produced by thermal decomposition of ferrous sulphate.

**CATHAYRED™** encompasses a wide range of high performance precipitated reds with a unique Hue and Chroma from salmon to dark red and blue shades featuring outstanding color and physical properties which are easy to wet, with high dispersibility, are chemically stable and can be used in a wide range of applications, including paint and coatings, rubber and plastic products, textile finishes, building materials and ceramics.

**CATHAYRED™** range underpins **CATHAY INDUSTRIES** commitment to the industry as its proprietary and eco-friendly technology provides the long-term sustainability in quality, and supply the market has been seeking.

### **About CATHAY INDUSTRIES**

**CATHAY INDUSTRIES** is one of the world's leading manufacturers of synthetic iron oxide pigments. The business areas of the company include iron oxide pigment for the construction industry, high technology grades for the use in coatings systems as well as highest purity iron oxides for cosmetics, food and pharmaceutical applications. The portfolio is complimented by a number of synergistic products. Established in 1979, the **CATHAY INDUSTRIES GROUP**, with production and office sites in the USA, China, Belgium, Australasia and South Africa and has been dynamically growing. The success of **CATHAY INDUSTRIES** is based on significant investment into latest production technologies.
